Key Pages and Components for the ERP Wireframe:

1. **Dashboard (Home Page)**
   - **Header**: Contains the logo, user profile (with a dropdown), and notifications.
   - **Navigation Bar**: On the left or top, with links to various modules like:
     - Home (Dashboard)
     - Finance
     - HR & Payroll
     - Sales & Inventory
     - Manufacturing (if applicable)
     - Reports & Analytics
     - Settings
   - **Main Area**: Includes key metrics or widgets such as:
     - Sales Summary
     - Tasks/Alerts
     - Recent Activities
     - Financial Overview
   - **Footer**: Might include links for legal information, version, or support.
2. **Module Page (e.g., Finance)**
   - **Sidebar Navigation**: Subcategories under the Finance section such as:
     - Invoices
     - Accounts Payable/Receivable
     - Transactions
     - Reports
   - **Main Content Area**:
     - For example, a table of invoices with a search bar and filters.
     - Buttons for adding new records, generating reports, etc.
   - **Action Buttons**: "Add New", "Edit", "Delete", "Generate Report".
3. **Data Entry Page (e.g., Add New Invoice)**
   - **Form Fields**:
     - Customer Name (Dropdown/Searchable)
     - Date (Date Picker)
     - Amount (Input Field)
     - Due Date (Date Picker)
     - Items List (Table format)
     - Add Item Button
   - **Submit Button**: To save the form data.
4. **Reports Page**
   - **Filters**: Dropdowns or date pickers to filter by date, department, or other criteria.
   - **Charts**: Bar/line graphs representing financials or operations.
   - **Data Table**: List of transaction history or inventory status.
